# RENATA FRANÇA METHOD®

**THE RENATA FRANÇA METHOD STRAIGHT FROM BRAZIL! THIS MASSEUSE KNOWN AROUND THE WORLD HAS DEVELOPED 3 TECHNIQUES THAT HAVE REVOLUTIONIZED THE MASSAGE.**

## **LYMPHATIC DRAINAGE 75 MIN | 150.00€**

It relies on firm pressure and an accelerated pace, in addition to exclusive pumping and maneuvers that allow immediate results. This technique reduces edema, activates blood circulation and stimulates a complex network of vessels through which body fluids pass, thus reducing the dreaded cellulite. The result is a less swollen and shapely body with a more accelerated metabolism and, therefore, a feeling of well-being.

## **REMODELING 60 MIN | 130.00€**

Manual massage technique, the main characteristic of which is the application of vigorous, rapid and firm movements all over the body. This massage has surprising results because it was designed to shape the adipocytes, that means to move the fat to the right place and thus give more contour to the body. Kneading, pinching and sliding are some of the maneuvers that promise to give new shapes to the body and ensure a more harmonious silhouette.

## **MIRACLE FACE 45 MIN | 90.00€**

With an immediate lifting effect, this facial massage deflates, accentuates the contours of the face and promotes the natural revitalization of the skin. Its function is to drain swelling and to draw a new contour to the face. With lymphatic drainage maneuvers, muscle massage and modeling, it achieves a result as spectacular as the body version.
